Professional Hair Labs™
World Leader in Cosmetic Bonding

SAFETY FIRST

A/B Adhesive Application Instructions

Full Head Bonding Using Full Head Bonder / AB Acrylic Combo

1. Apply a medium coating of any of Professional Hair Labs Full Head Bonding Adhesive to the entire scalp. When it turns clear (about 5 minutes), proceed to step

2. Put a medium (not too thin) coating of the A/B adhesive around the entire perimeter of the scalp (one inch wide) on top of the New Dimension adhesive. Also, make a one inch wide X using A/B adhesive crossing the center of the scalp. (let it dry 4-5 minutes until tackiness is gone.)

Clean Up, Front Only (without taking off the system)

1. Using your fingers, roll as much adhesive from the scalp as you can.

2. Apply a small amount of A/B adhesive remover to the areas that have A/B adhesive. Let sit for 1 minute.

3. Spray a small amount of Ultra Safe adhesive remover on a cloth and wipe scalp.

4. Continue spraying remover on cloth and wiping scalp until it is clean.

5. Wipe with damp cloth to remove oils.

A/B Adhesive Application Instructions

Scalp Clean Up

1. Apply a small amount of A/B adhesive remover to the perimeter and X where the A/B adhesive is.

2. Spray a small amount of Ultra-Safe over the entire scalp. (Let it sit a couple minutes and wipe it clean.)

3. Repeat step 2 until clean.

4. Shampoo scalp with New Demension Dual Action Shampoo (green). This shampoo will remove the adhesive residue, help stop itching, and provide antibacterial as well as anti-fungal properties to the scalp.

Scalp must be clean and free of residue in order to have a good bonding attachment. Clean up the system and you are ready to start your new bonding.
