Flex A Bond Application Instructions

1. Prepare the client's head as you would for any track system.
2. Apply redline tape temple to temple on the base of the system.
Run a very thin bead of Flex-a-Bond adhesive down the center of the redline tape.
3. Spread out the Flex-a-Bond adhesive with a small brush, making sure that the adhesive is on the tape only. Set the brush aside.
4. Apply the hair system to the scalp. Seat the hair system in place by pulling down with a towel. Check the brush you used to apply the adhesive. When the bristles are hard, the adhesive is cured.
