## GHOSTBOND XL Application Instructions

---

- Do Not Apply GHOSTBOND XL Directly To Lace Base.
- Always run a patch test before full application.

1. If bonding a skin/polyurethane unit, apply one thin coat on the base. This should always be completed before you start applying GHOSTBOND XL to the scalp.
2. Apply 4 thin coats of GHOSTBOND XL to the client's scalp, keeping the same quantity of adhesive with each coat. Allow roughly 20 seconds in between coats for each coat to dry.
3. Once the 4th coat is applied, wait 4-5 minutes for GHOSTBOND XL to completely cure.
4. The recommended cleaner to remove GHOSTBOND XL from the scalp is Ultra-Safe all natural adhesive remover. To remove GHOSTBOND XL from the hair unit, please use Ghost Buster.
