GHSTBOND XL Coconut Application Instructions

- Do Not Apply GHSTBOND XL Coconut Directly To Lace Base.
- Always run a patch test before full application.

1. If bonding a skin/polyurethane unit, apply one thin coat on the base. This should always be completed before you start applying GHSTBOND XL Coconut to the scalp.
2. Apply 4 thin coats of GHSTBOND XL Coconut to the client's scalp, keeping the same quantity of adhesive with each coat. Allow roughly 20 seconds in between coats for each coat to dry.
3. Once the 4th coat is applied, wait 4-5 minutes for GHSTBOND XL Coconut to completely cure.
4. The recommended cleaner to remove GHSTBOND XL Coconut from the scalp is Ultra-Safe all natural adhesive remover. To remove GHSTBOND XL Coconut from the hair unit, please use Ghost Buster.
