#### Section 4: First-Aid Measures

##### Description of first aid measures:

**Inhalation:** Remove to fresh air. Keep warm and at rest. Get medical attention.

**Skin:** Remove contaminated clothing. Wash skin with soap and water. Get medical attention if skin cracking or redness occurs.

**Eyes:** Immediately flush eye with large quantities of water for at least 10 minutes holding the eye open. Avoid contaminating unaffected eye.

**Ingestion:** Wash out mouth with water. Do not induce vomiting. Keep patient warm and at rest. Give 240-300 ml water to drink (only if patient is conscious). Repeat if patient vomits. Get medical attention.

##### Most important symptoms and effects, both acute and delayed:

Causes skin irritation. Causes serious eye irritation.

**Indication of any immediate medical attention and special treatment needed:** Treat symptomatically.

#### Section 5: Fire-Fighting Measures

##### Extinguisher media:

**Special hazards:** Hazardous combustion products may include carbon monoxide.

**Fire/explosion hazards:** Highly flammable liquid. Vapors may form explosive mixtures with air. Vapor may cause flash fires. Vapors may accumulate in low or confined areas, travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create a fire or explosion hazard. Containers may explode when heated.

**Extinguishing media:** Suitable: Alcohol-resistant foam, dry chemical powder, carbon dioxide, water mist. Unsuitable: Water in a jet.

**Protective equipment:** Full protective clothing and self-contained breathing apparatus.

#### Section 6: Accidental Release Measures

##### Personal precautions, protective equipment and emergency procedures:

Immediately contact emergency services. Eliminate all sources of ignition. Evacuate all non-essential personnel. Ventilate area. Be aware of possible accumulation of vapors. Follow fire-fighting measures.

**Environmental precautions:** Eliminate sources of ignition. Keep away from drains, water and soil. Advise authorities if spilled material has entered water courses or sewer or has contaminated soil or vegetation. Use water spray to cool heat exposed containers.

**Methods for containment and cleaning up:**

Absorb or contain liquid with sand, earth or spill control material. Collect and place in a labelled sealable container for subsequent safe disposal. Flush contaminated area with plenty of water.

## Section 7: Handling and Storage

**Precautions for safe handling:**

Eliminate sources of ignition. Only use in well ventilated areas. Keep container tightly closed when not in use. Provide emergency eye washing and shower facilities. Take precautions against static discharge by earthing and bonding all containers and equipment before transferring material. Use explosion proof electrical (ventilating, lighting and material handling) equipment.

**Conditions for safe storage, including incompatibilities:**

Storage area should be cool, dry and away from sources of ignition. Keep away from direct sunlight. Keep in a well-ventilated place.

**Specific end uses:** Use only as directed.

## Section 8: Exposure Controls and Personal Protection

**Control parameters:**

**Occupational exposure limits:**
